

Appl. No. : 10/601,070  
Filed : June 20, 2003

### REMARKS

Applicants hereby elect, without traverse, to prosecute the claims of Group II, directed to compounds of Formula I, where m is 1, and methods of using the compounds, which includes claims 1-35, in part. Applicants have cancelled the subject matter drawn to the non-elected subject matter, *i.e.*, a portions of Claim 1 relating to the definition of m. Because of the cancellation of the subject matter in Claim 1, Claim 8 became redundant and applicants have cancelled this claim as well. Applicants assert that the cancellation of these claims was made solely in response to the restriction requirement by the Examiner. By such cancellation Applicants make no admission as to the patentability of the cancelled subject matter. Applicants reserve the right to file continuation, divisional, or continuation-in-part applications and pursue the cancelled subject matter.

No fee is believed due in connection with the present amendment and response. If this is incorrect, please charge any additional fees, including any fees for additional extension of time, to Deposit Account No. 11-1410.

Respectfully submitted,
